

DARSON SECURITIES LIMITED
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2022

	2022 Rupees	2021 Rupees
Financial liabilities		
Variable rate instruments:		
Long term loan	<u>3,221,990</u>	<u>4,037,724</u>

Fair value sensitivity analysis for fixed rate instruments

The Company does not account for any fixed rate financial assets and liabilities at fair value through profit or loss. Therefore, a change in interest rate will not effect fair value of any financial instrument.

Cash flow sensitivity analysis for variable rate instruments

If interest rates on long term loan at the year end, fluctuate by 1% higher /lower with all the other variables held constant, loss after taxation for the year would have been Rs. 32,220 (2021: Rs. 40,377) lower/higher, mainly as a result of higher/lower interest expense on floating rate borrowings.

27.7.3 Equity Price Risk

Equity price risk represents the risk that fair value of financial instrument will fluctuate because of changes in the market prices, whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factor affecting all or similar financial instruments traded in the market. The Company is exposed to equity price risk since it has investments in quoted equity securities amounting to Rs. 88.947 million (2021: Rs. 118.840 million) at the reporting date. The Company manages price risk by monitoring exposure in quoted equity securities and implementing the strict discipline in internal risk management and investment policies.

28 CAPITAL RISK MANAGEMENT

The Company's objective when managing capital is to safe guard its ability to continue as a going concern so that it can continue to provide returns for shareholders and benefits for other stake holders and to maintain strong capital base to support the development of its business. The Company manages its capital structure in the context of economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure the Company may adjust amount of dividend paid to shareholders or issue new shares.

28.1 Liquid Capital
